

Industrial Electric Hot Air Blowers are highly efficient heating equipments widely used in variety of industrial applications. They are use to speed up drying and they can provide safe, clean and fast way of heating. They are easy to use and are fully mobile to push from places to places. They are carefully built and we provide standard 2 years warranty.

### Standard Features

- OFF/ Fan On/ Heater On Group 1/ Heater on Group 2 (Max)
- Variable heat control
- Kanthal (Swiss) Ni-Cr Heating Element
- Low Noise motor with thermal protection
- Outlet extension able connection to flexible tube
- Easy to move using support wheels.
- Temperature control by thermostat
- Safety: If Fan is not on, heater cannot turn on
- Industrial 5P plug (male) with 5m water-proof cable
- Fully factory tested
- 2 Year Warranty

Technical data	Dimension	HAB-18	HAB-30	HAB-40
